2 years (normally up to 30 months maximum). Part A and Part B MFPH obtained in this phase and public health knowledge and core skills gained. Registrars are also expected to begin to demonstrate development of ability to integrate their use of those skills as progress towards independent practice. In phase 1 this will be assessed by examination, at each annual appraisal and ARCP.

This phase allows the registrar to take increasing levels of responsibility leading to the final year when registrars are expected to work at consultant level but under supervision. In the final year, supervision will become increasingly ‘light touch’ as the Educational Supervisor judges that the registrar can be entrusted with work reflecting a high level of responsibility. ‘Acting up’ into a consultant post is encouraged in the final year of training. In phase 2 workplace based assessment, annual appraisals and ARCP will continue to assess this progress.
The Descriptive Epidemiology of Developmental Dysplasia of the Hip in Great Britain and Ireland

Eleanor Powers
Supervisor: Professor Christi Deaton
07/12/2016
Body text: 2,935 words

- Grounding in epidemiological theory & statistics
- Access to expert experience/insight/anecdote
- Wealth of possible projects
- Challenging standard of written work
- Cambridge’s unique environment

Health impacts of the M74 urban motorway extension: a mixed-method natural experimental study

We are also interested in places you have walked or cycled to in your local area. Please tick to show if you have walked or cycled to any of the following places in your LOCAL AREA in the PAST SEVEN DAYS. Remember that your local area is everywhere within a ten-minute walk (about half a mile) from your home. If you have walked and cycled to any of these local places in the past seven days, please tick both.

- Local shop (e.g. grocery shop, bakery, butcher)
- Supermarket
- Local services (e.g. bank, cash machine, post office, chemist, library)
- Restaurant, café, pub or bar
- Fast food restaurant or takeaway
- Bus stop, tram, train or underground station
- Sport and leisure facility (e.g. swimming pool, sports field or fitness centre)
- Open recreation area (park or other open space)
- Family or friend's house
- Work, school or training institute

Finally, we are interested in whether you walked or cycled in your local area FOR RECREATION in the PAST SEVEN DAYS. Tick all that apply.

- Walked for recreation in the past 7 days
- Cycled for recreation in the past 7 days
- Did not walk or cycle for recreation
